Longwood, FL 32779

Dear Joe,

I wanted to write you a quick note to let you know how happy I am with our SKYbrella purchase. I must admit, I thought the price was a little expensive for an "umbrella" but seeing them installed on our property, I can say they are well worth the money! It's more than just an umbrella, it is a shade structure which we can open and close. It fits in very well with the outside seating canopies that you installed previously. It is absolutely fantastic!

People ask us all the time where we got them, our customers love them! We can see these lasting many years, unlike the typical umbrellas we have seen around.

Thank you again and it was a pleasure doing business with you.

Kindest Regards,

Kelly Ekas
